

How to Access Your Owlcam Video History Via Wi-Fi (Direct Connect)

Owlcam also lets you access History over Wi-Fi (Direct Connect) on both iOS/Android app when you're in your car or close to your camera. Follow the instruction below.

To connect to your Owl Car Cam's Wi-Fi, we recommend sitting in your car and following steps 1 and 2.

1 Tap the three dots to access hidden Menu

2 Tap "History (Direct Connect)" to review your recorded footage

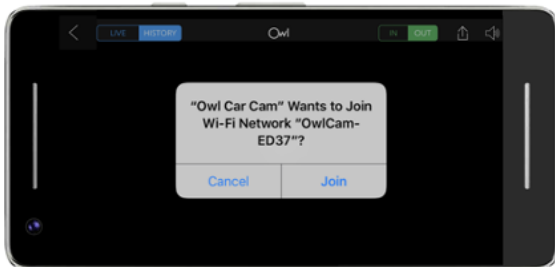

Tap "Join" to connect to your Owl's Video History via Wi-Fi.

When connected to your Owl Car Cam's Wi-Fi, you can scrub through your Video History and create clips without using your credits .

Tap the Share icon to create clips of variable lengths:

- Quick Clips (~30 seconds)
- 1 minute
- 5 minutes

(Note: after disconnecting from Wi-Fi History on Android, it can take up to 45 secs to reconnect)

A Note About Privacy

With Owl, your privacy is protected.

- All video recorded on Owl is Privacy Locked so even if somebody has your camera they can never access your video (unlike dashcams).
- Clips can only be viewed, edited, and shared by you.
- No one at Owl can see your clips unless you share them publicly.
